

A Level History Transition Work

An Introduction for all potential A Level Historians

Hi everyone,

We have put together a number of transition tasks to help you get ready for starting A Level History.

The work is divided into the three taught units.

There is a PP about **American Civil Rights 1865-1992** from me which gets you thinking about sources and focuses on a huge event that changed the course of history for Native Americans. There are three attachments about Britain 1603-1660, with a focus on the beginning of the era. There are 5 attachments about **Russia 1894-1941** that get you thinking about the Russian monarchy and life in Russia in the years leading up to 1894. Overall the idea is to help you set the scene and gain a flavour of all three eras.

If you have any problems or questions then get in touch with the respective teacher.:

USA - Mrs Heeks

Britain - Ms Christie

Russia - Mrs Page

We really hope you enjoy getting stuck into your new subject and look forward to seeing you in September.

Mrs Heeks

Head of History
