

ECONOMICS at SCGSG

Edexcel Economics B EB901

The Course

This course enables students to think like an economist by understanding the application of economic concepts and theories through critical consideration of current real-world economic issues.

Students will gain a global perspective and understanding on how countries & economies operate and the impact individual and collective choices made have on the wider community. This will allow them to think critically of key issues when analysing business situations and putting forward possible solutions.

“It facilitates a better understanding of the modern political landscape in a rapidly changing world”

“I’ve gained the analytical skills to confidently debate global issues.”

“It’s interesting to be able to take about everyday issues that impact on my life now and in the future”

Y12 & Y13 Economics students at SCGSG.

After A Levels

Economics can be studied as a single honours degree or in combination with a wide range of other subjects such as Economics & Geography, Economics & Law and Economics & Management.

A degree in Economics can be used in many areas, including public policy, the world of finance by predicting the impact of investments, policy decisions, industry trends and demographics.

Studying this subject is both enjoyable and challenging and extremely relevant to the world of work. Economics provides the background knowledge needed for future economists, accountants, historians, mathematicians, lawyers, entrepreneurs and many more!!
