

# ASPIRATIONAL STUDENTS

Our goal is to create an environment where our students feel like they can aspire to anything they want to be by providing them with a variety of opportunities to broaden their current experience and develop their skills for the future.

*The supportive atmosphere of the Sixth Form, along with the staff who clearly cared about students not just their exams, ensured that as well as leaving with excellent A-Level results, I left as a better person, prepared for the next stage in my life.*  
**Jodie, student from 2014 to 2021**

## Leadership opportunities:

### RESPECT

**Harkiran** Student Ambassador  
**Stella** Senior Prefect

The Respect team focuses on advocacy for diversity, equality and anti-bullying within the school community in order to create a positive and safe space for all students. We work with all members of the school community to ensure that everyone feels valued and represented.

We hope that through developing and practising the character strength of respect in school, students will see how important it is and will continue to advocate for these causes in the future.

### POSITIVITY & RESILIENCE

**Isobel** Student Ambassador  
**Neha** Senior Prefect

The Positivity and Resilience team champions mental health and well-being within school, positively contributing to the school community by encouraging all students in their personal development. Our responsibilities include mentoring younger students and organising the school's calendar of well-being events, contributing to the school's focus on mental wealth.

We aim to help all students develop a growth mindset and feel supported within school to enable them to flourish and be happy.

### MAKING GOOD DECISIONS

**Maiya** Student Ambassador  
**Megan** Senior Prefect

The Making Good Decisions team encourages students to make positive choices, considering the consequences of their actions on an individual and community level. We run the Student Forum, in which elected representatives from each year group meet regularly to discuss and implement the ideas of their peers to improve school life. Additionally, our Environmental Committee focuses on lowering our carbon footprint as a school and making choices to lower our impact on the planet. Through also contributing to the provision of careers and subject choice advice, we aim to equip students with the tools to make good decisions that will positively affect their futures.

### INTEGRITY

**Tilly** Student Ambassador  
**Eve** Senior Prefect

The Integrity team strives to contribute to the school community and encourage other students to do so too.

The House Captains co-ordinate House events and spread House spirit school-wide in sporting, academic and creative events. These ongoing events create a sense of solidarity between students within their own House and also a friendly rivalry between other Houses. Our team also oversees and organises charity events held in school, raising money for a wide range of good causes. The transition prefects aim to support all new students to have a smooth and enjoyable transition into our school.

### LOVE OF LEARNING

**Penny** Student Ambassador  
**Rebecca** Senior Prefect

Love of Learning is all about encouraging students to be passionate about their subjects and to support them to thrive and enjoy their learning in these subjects. We also work with students to support them by providing study tips.

A key focus is to ensure students have a clear personal method of how to study effectively in order to set a strong foundation and to help them achieve their potential. We also work with subject departments to enhance the curriculum and provide a wide variety of subject based extra-curricular activities for students to enjoy.

# World Challenge Expedition 2023

Reflecting on their World Challenge Expedition to Tanzania, our students said they had gained a greater appreciation of what they have in life, as well as:

- Being present in the moment
- Having greater empathy for others
- Discovering new skills (bricklaying, plastering, cooking, swimming instructor)
- Recognising each others skills and strengths and how useful they can be in a team
- Being able to see a way forward in a tough situation

*It was the most unique experience of my life and I don't think I will ever go on a trip of a similar scale again.*

*The highs of the trip were electrifying and though the lows were not as good, regardless they definitely made me assess my durability and that it was the coolest three weeks ever; I'll forever be proud of what I achieved on the trip.*

**Sharanya in Year 12**

## Apprenticeship opportunities with:

## University courses including:

Aerospace Engineering • Art • Architecture • Biology • Biochemistry • Business Management Computer Science • Chemistry • Costume Design • Dentistry • Drama and Theatre Studies • English with Film • Economics • French • Furniture Design • Geography • Graphic Design • History Hispanic Studies • Illustration • International Affairs • Journalism Studies • Korean Studies • Law • Live Events Management • Medicine • Mathematics • Marine Biology • Music • Neuroscience • Nursing • Optometry • Occupational Therapy • Psychology • Philosophy • PPE • Paramedic • Science • Politics • Religious Studies • Sports Science • Stage Management • Tourism Management • Teaching • Veterinary Science or Medicine • Veterinary Nursing • War Studies • Zoology
