

UNIFROG CAREERS PLATFORM – Parents' Accounts

Dear Parent / Carer,

Careers education is an essential part of our Personal Development programme, and as such it is most effective when parents are able to support students at home.

The school uses Unifrog as our online careers platform. This is an amazing online tool where students can research careers ideas, complete personality testing to see what careers might suit their preferences and log their skills and achievements. There are also webinars to attend hosted by companies and young professionals over the year. These will provide students with the chance to hear first-hand accounts of how they got into various professions and what working in those field looks like today.

This year, we would like parents of students in Years 11, 12 and 13 to sign up for their own Parent Unifrog accounts. We are sure that this will be an invaluable source of information for you to help support careers decisions and planning at home.

Please scan this QR code or follow this link to sign up for your Unifrog Parent's account:
